Argos offers sound solutions to your portable sound problems

Sound Pak II **A powerful total sound system for large groups**

For schools, churches, hospitals, auditoriums, factories, theaters, gymnasiums...Sound Pak II produces the big sound required to effectively reach big audiences. Custom installed performance is achieved through new solid-state electronic design capable of continuous 24-hour, 365 days-per-year operation. Trouble free power covers rooms up to 150 ft. long.

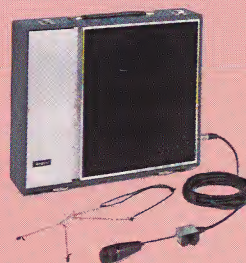

Voice Director II **Outdoor Cordless Sound System**

Athletic events, auctions, company picnics, any large gathering outside or in requiring extra power and complete portability. Advanced design multi-speaker sound column and powerful solid state amplifier create a sound truck in a suitcase. In normal use, operates up to 100 hours on one 12V standard or rechargeable battery. The Voice Director II sets-up in just seconds, plug in the mic—flip the switch, and you're ready to go! Weighs only 28 lbs.

Speech Director II **Compact—Lectern Sound System**

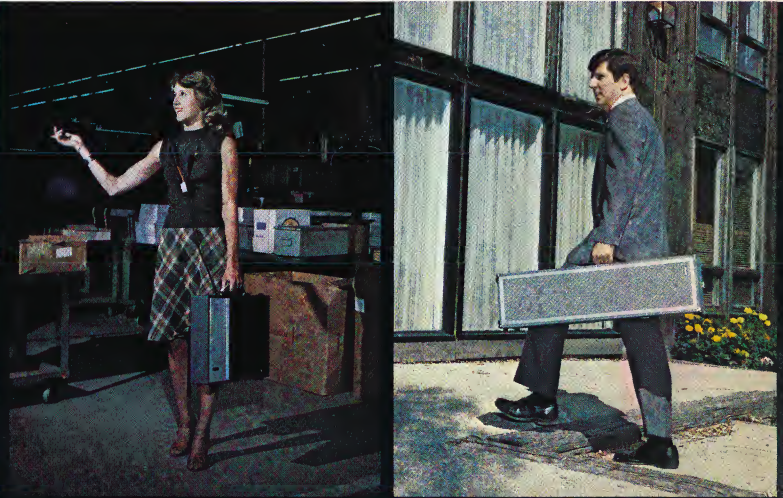

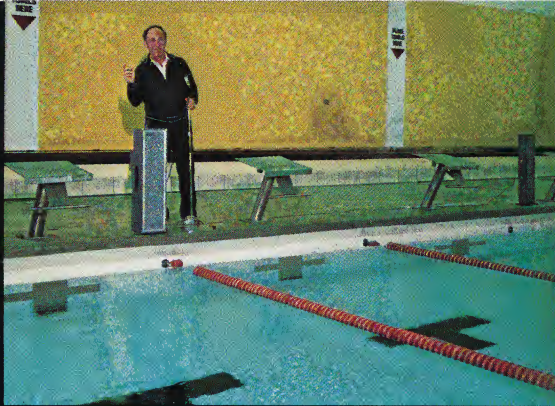

Here's the ideal sound system for any speaking situation requiring a lectern. Sets up ready to use in 30 seconds. Has an extra AC convenience power outlet and on/off signal light. New solid state amplifier operates on just a single 12V standard or rechargeable 12V battery or on 115V AC at the flip of a switch.

The Executive **Personal Sized Portable Sound**

Carry like a briefcase anywhere...to meetings, lectures, luncheons. Unique miniature microphone reproduces speech with superb fidelity for large groups. Sets up in seconds with only one volume control—and ON/OFF switch.

Argos portable sound systems, the perfect solution for situations like these...
